

fast album formula

Complete this worksheet, then place it in your materials file as a reference.

Album Content

- State the theme and purpose of your album.

- Gather the photos you'd like to include in your album.
List additional photos you need to take or request from others.

Album Organization

- Decide how your album will be organized (e.g., chronologically, in themed chapters, as a top-ten list, using questions and answers).

- Select the framework pages you will include in your album.
 - title page dedication page table of contents
 - chapter openers filler pages closing page
 - other:

- Sort your photos, narrow them down, and put them in order.

Album Design

- Select an album size and style.

- Sketch layout ideas for your album. Use the grid provided here.
(To save time, use a consistent design scheme throughout.)
- Choose a color scheme, and adhere color swatches below.
(Use your 1-inch square or circle punch.)

- Gather the products and tools you will use. List them here:
